

Completion of Forms

Now that you are registered for the Patient Portal, you can see that some forms have been assigned for your incoming visit. It will help speed up your check in process if these forms are completed ahead of time.

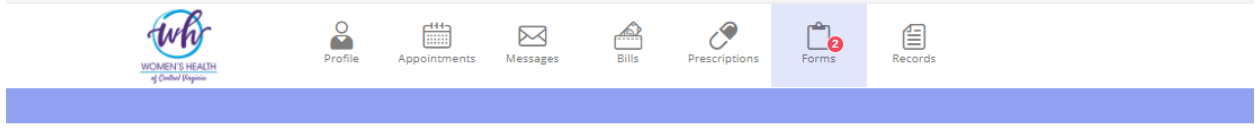

1. You can view forms that are assigned to you.

2. Click **Start** to begin completion of the forms. Fill out the form and click **Submit**. Complete the remaining forms.

For the HIPAA Confidentiality form, please make sure to add First and Last name of anybody that you would like us to be able to talk with on your behalf. You also need to select what information can be discussed with that person.

3. Once you have completed all forms, they will show as **Submitted**.

Patient Forms

Patient Name	Appointment Date	Form Name		
TEST,LAURA	No Appointment	Consent to Care	✓	Submitted
TEST,LAURA	No Appointment	HIPAA Acknowledgement	✓	Submitted
